

DELIVERING INFORMATION AND INTELLIGENCE

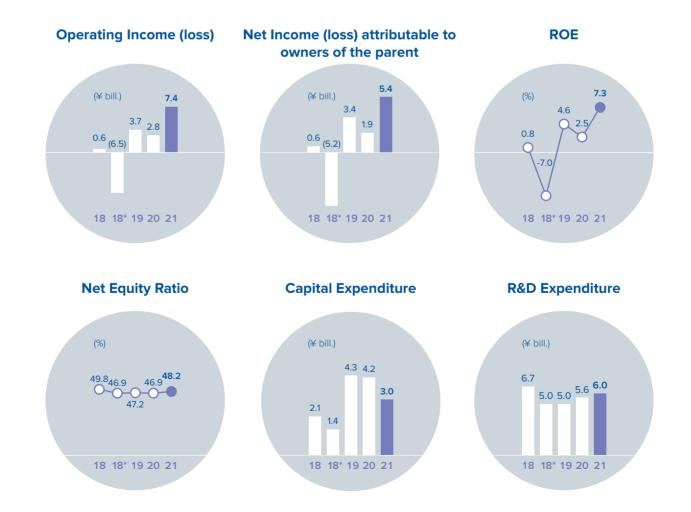

Japan Radio Co., Ltd.

Financial Report 2021
For the year ended December 31, 2021

- * The Company and some of its consolidated subsidiaries whose fiscal year-end date had been March 31 changed the fiscal year-end and consolidated fiscal year-end from March 31 to December 31. Accordingly, fiscal year, ended December 31, 2018 included only nine months of operations whereas fiscal years ended December 31, 2019, 2020 and 2021 consisted of twelve months.
- ** From FY2021, the Communications Equipment business is excluded, as this business was transferred to JRC Mobility Inc. January 1, 2021 through an absorption-type company split.

Notes to Consolidated Financial Statements Year Ended December 31, 2021

1. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared from the accounts maintained by Japan Radio Co., Ltd. (the "Company") and its consolidated subsidiaries, in accordance with the provisions set forth in the Companies Act of Japan and applicable regulations and in accordance with accounting principles generally accepted in Japan. The information provided in the notes to the consolidated financial statements is limited to that required by the Companies Act of Japan and applicable regulations.

Statements of comprehensive income and cash flows are not required as a part of the basic financial statements under the Companies Act of Japan and applicable regulations and, accordingly, are not presented herein.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥115.02 to \$1, the approximate rate of exchange at December 30, 2021. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Consolidation—The consolidated financial statements as of December 31, 2021, include the accounts of the Company and its 28 significant subsidiaries (together, the "Group").

Under the control and influence concepts, those companies in which the Company, directly or indirectly, is able to exercise control over operations are fully consolidated, and those companies over which the Group has the ability to exercise significant influence are accounted for by the equity method.

Investments in two unconsolidated subsidiaries are accounted for by the equity method.

Investments in the remaining unconsolidated subsidiaries and affiliated companies are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Group is eliminated.

Goodwill represents the excess of the cost of an acquisition over the fair value of the net assets of the acquired subsidiary company at the date of acquisition. Goodwill is reported in the balance sheet and is amortized using the straight-line method over seven years.

b. Inventories—Inventories are measured at the lower of cost or net selling value.

The cost of finished products, semifinished products, and work in process is determined principally by the specific identification method.

The cost of raw materials and supplies is determined principally by the average cost method.

Selling value is defined as the selling price less additional estimated manufacturing costs and estimated direct selling expenses. Replacement cost may be used in place of the net selling value, if appropriate.

c. Marketable and Investment Securities—Marketable and investment securities are classified and accounted for, depending on management's intent, as available-for-sale securities, which are not classified as either trading securities or held-to-maturity debt securities, and are reported at fair value with unrealized gains and losses, net of applicable taxes, reported as a separate component of equity.

Nonmarketable available-for-sale securities are stated at cost determined by the moving-average method.

For other-than-temporary declines in fair value, investment securities are reduced to net realizable value by a charge to income.

- d. Property, Plant and Equipment—Property, plant and equipment are stated at cost. Depreciation is computed by the straight-line method. The range of useful lives is from 10 to 50 years for buildings and structures and from 7 to 8 years for machinery and equipment. The useful lives for lease assets are the terms of the respective leases.
- e. Long-Lived Assets—The Group reviews its long-lived assets for impairment whenever events or changes in circumstance indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss would be recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset, or the net selling price at disposition.
- f. Stock and Bond Issue Costs—Stock and bond issue costs are charged to income as incurred.
- g. Allowance for Doubtful Accounts—The allowance for doubtful accounts is stated in amounts considered to be appropriate based on the past credit loss experience and an evaluation of potential losses in the receivables outstanding.
- h. Retirement and Pension Plans—The Company and certain consolidated subsidiaries have contributory funded defined benefit pension plans and unfunded retirement benefit plans for employees. Other consolidated subsidiaries have unfunded retirement benefit plans.

The Company and certain consolidated subsidiaries accounted for the liability for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The projected benefit obligations are attributed to periods on a straight-line basis. Actuarial gains and losses are amortized on a straight-line basis over 10–12 years, within the average remaining service period. Past service costs are amortized on a straight-line basis over 15 years, within the average remaining service period.

- *i.* **Provision for Bonuses**—The provision for bonuses is estimated and recorded to provide for the payment of employee bonuses.
- *j.* **Provision for Loss on Construction Contracts**—The provision for loss on construction contracts is provided for an estimated amount of probable losses to be incurred in future years.

- k. Provision for Environmental Measures—The provision for environmental measures is estimated and recorded to provide for future potential costs, such as costs related to disposal of Poly Chlorinated Biphenyl based on related legal requirements. The Company recorded the estimated amount deemed necessary for the loss on removal of soil contamination on part of the land owned by the Company.
- I. Asset Retirement Obligations—An asset retirement obligation is recorded for a legal obligation imposed either by law or contract that results from the acquisition, construction, development, and normal operation of a tangible fixed asset and is associated with the retirement of such tangible fixed asset. The asset retirement obligation is recognized as the sum of the discounted cash flows required for the future asset retirement and is recorded in the period in which the obligation is incurred if a reasonable estimate can be made. If a reasonable estimate of the asset retirement obligation cannot be made in the period the asset retirement obligation is incurred, the liability should be recognized when a reasonable estimate of the asset retirement obligation can be made. Upon initial recognition of a liability for an asset retirement obligation, an asset retirement cost is capitalized by increasing the carrying amount of the related fixed asset by the amount of the liability. The asset retirement cost is subsequently allocated to expense through depreciation over the remaining useful life of the asset. Over time, the liability is accreted to its present value each period. Any subsequent revisions to the timing or the amount of the original estimate of undiscounted cash flows are reflected as an adjustment to the carrying amount of the liability and the capitalized amount of the related asset retirement cost.
- *m.* Reserve for Product Defect Compensation—The Company provided a reserve for product defect compensation at an estimated amount in order to cover the anticipated compensation.
- n. Construction Contracts—Construction revenue and construction costs are recognized by the percentage-of-completion method if the outcome of a construction contract can be estimated reliably. When total construction revenue, total construction costs, and the stage of completion of the contract at the balance sheet date can be reliably measured, the outcome of a construction contract can be estimated reliably. If the outcome of a construction contract cannot be reliably estimated, the completed-contract method is applied. When it is probable that the total construction costs will exceed total construction revenue, an estimated loss on the contract is immediately recognized by providing for a loss on such construction contracts.
- o. Income Taxes—The provision for income taxes is computed based on the pretax income included in the consolidated statement of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.
- p. Foreign Currency Transactions—All short-term and long-term monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rates at the balance sheet date. The foreign exchange gains and losses from translation are recognized in the consolidated statement of income to the extent that they are not hedged by forward currency contracts and options.
- q. Foreign Currency Financial Statements—The balance sheet accounts of the consolidated foreign subsidiaries are translated into Japanese yen at the current exchange rate at the balance sheet date except for equity, which is translated at the historical rate.

Differences arising from such translation are shown as "Foreign currency translation adjustments" under accumulated other comprehensive income in a separate component of equity.

Revenue and expense accounts of consolidated foreign subsidiaries are translated into yen at the average exchange rate.

r. Derivatives and Hedging Activities—The Group uses derivative financial instruments to manage its exposures to fluctuations in foreign exchange and interest rates. Foreign currency forward contracts, interest rate swaps, and currency options/swaps are utilized by the Group to reduce foreign currency exchange and interest rate risks. The Group does not enter into derivatives for trading or speculative purposes.

Derivative financial instruments and foreign currency transactions are classified and accounted for as follows: (a) all derivatives are recognized as either assets or liabilities and measured at fair value, and gains or losses on derivative transactions are recognized in the consolidated statement of income, and (b) for derivatives used for hedging purposes, if derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on derivatives are deferred until maturity of the hedged transactions.

The foreign currency forward contracts employed to hedge foreign exchange exposures for import purchases and export sales are measured at fair value and the unrealized gains or losses are recognized in income. Trade payables and trade receivables denominated in foreign currencies are translated at the contracted rates if the forward contracts qualify for hedge accounting.

The interest rate swaps, which qualify for hedge accounting and meet specific matching criteria, are not remeasured at market value but the differential paid or received under the swap agreements is recognized and included in interest expense or income.

s. **Per Share Information**—Basic net income per share is computed by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding for the period, retroactively adjusted for stock splits.

Diluted net income per share is not disclosed as there were no securities with a dilutive effect.

Cash dividends per share presented in the consolidated statement of income are dividends applicable to the respective years, including dividends to be paid after the end of the year.

- **t.** Adoption of Consolidated Taxation System—The Company and some of its consolidated subsidiaries adopted the consolidated taxation system with Nisshinbo Holdings Inc. as the taxable parent company.
- u. Application of Tax Effect Accounting for the Transition from the Consolidated Taxation System to Group Tax Sharing System—A transition to a group tax sharing system established in the "Act for Partial Amendment of the Income Tax, etc." (Act. 8 of 2020) and readjustments of a nonconsolidated taxation system in line with the transition to the group tax sharing system.

For the items subject to such transition or the readjustments, the Company and some of its consolidated subsidiaries do not apply the provisions of Paragraph (44) of "Implementation Guidance on Tax Effect Accounting" (Accounting Standards Board of Japan ("ASBJ") Guidance No. 28, February 16, 2018) in accordance with the treatment under Paragraph (3) of "Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing system" (ASBJ Practical Issues Task Force No. 39, March 31, 2020). The amounts of deferred tax assets and deferred tax liabilities are based on the provisions of the Tax Act prior to the amendment.

v. Changes in Presentation Method Due to Application of "Accounting Standard for Disclosure of Accounting Estimates"—The Company applies "Accounting Standard for Disclosure of Accounting Estimates" (ASBJ Statement No. 31, March 31, 2020) from the current consolidated fiscal year and provides notes regarding significant accounting estimates.

3. SIGNIFICANT ACCOUNTING ESTIMATE

The Stage of Completion of the Contract with Percentage-of-Completion Method

(1) Carrying amount

	Millions of Yen	Thousands of U.S. Dollars
Net sales	¥5,216	\$45,349

(2) Information on the significant accounting estimate

The Group applies the percentage-of-completion method to construction contracts for which results are estimated reliably with respect to the portion of progress made by the end of the fiscal year and estimates the stage of completion by the cost to cost approach. In applying the percentage-of-completion method, it is necessary to reasonably estimate the total amount of construction revenue, the total amount of construction costs, and the stage of construction as of the end of the current consolidated fiscal year.

The Group estimates total construction costs based on pre-estimated costs prepared for each contract and records construction revenues accordingly. Pre-estimated costs are reviewed at the end of each fiscal year based on the current status of construction. However, there is a possibility that the estimated amount may be affected by design changes or construction method changes due to changes in specifications required by customers, which may affect the amount of revenues in the consolidated financial statements for the following fiscal year.

4. INVENTORIES

Write-downs of inventories for the year ended December 31, 2021, were recognized in the following account:

	Millions of Yen	Thousands of U.S. Dollars
Cost of sales	¥636	\$5,532

5. LONG-LIVED ASSETS

The Group reviewed its long-lived assets for impairment at December 31, 2021, and recognized impairment losses as follows:

Year Ended December 31, 2021

Location: Nagano City, Nagano; Koto Ward, Tokyo, and more

Asset use: Assets for the Marine Systems Division

Reason: Due to the difficulty of maintaining positive cash flows in the operation

	Millions of Yen	Thousands of U.S. Dollars
Type: Furniture and fixtures Other	¥23 	\$200 <u>91</u>
Total	<u>¥33</u>	\$291

Location: Fujimino city, Saitama

Asset use: Assets for the Other Business Division

Reason: Due to the difficulty of maintaining positive cash flows in the operation

	Millions of Yen	Thousands of U.S. Dollars
Type—Other	¥34	\$297
Total	<u>¥34</u>	<u>\$297</u>

Location: Shenzhen, China Asset use: Manufacturing facilities

Reason: Total cash flows were expected to decline as a result of weak business performance

	Millions of Yen	Thousands of U.S. Dollars
Type: Buildings and structures Machinery and equipment Furniture and fixtures Other	¥ 21 15 6 87	\$ 183 132 52 757
Total	¥129	\$1,124

The Group allocates the assets of its business divisions into the smallest cash-generating units when evaluating them for impairment.

6. LAND REVALUATION

Nagano Japan Radio Co., Ltd., a consolidated subsidiary, revaluated its land used for business activities in accordance with the "Law of Land Revaluation" on March 31, 2002. The difference between the revalued amount and the book value is recorded within "Revaluation reserve for land" in equity after deducting the related deferred tax liability.

The fair value as of December 31, 2021, declined by ¥983 million (\$8,543 thousand) compared to the book value after the revaluation.

7. PLEDGED ASSETS

As of December 31, 2021, the following assets were pledged as collateral for short-term loans and long-term debt of the Group:

	Millions of Yen	Thousands of U.S. Dollars
Land Buildings and structures	¥ 34 	\$ 292 1,559
Total	¥213	\$1,851

There are no liabilities corresponding to the above assets pledged as collateral as of December 31, 2021.

8. CREDIT FACILITY AGREEMENT

Certain subsidiaries have concluded a credit facility agreement with a local bank for procurement of working capital. The portion of the credit line that had not been exercised under this agreement as of December 31, 2021, was as follows:

	Millions of Yen	Thousands of U.S. Dollars
Total loan agreement limits Loan executions	¥718	\$6,241
Loan executions	×	7 <u></u>
Net	¥718	\$6,241

For this facility, the following securities have been provided:

- Rights of pledge for the inventory of Alphatron Marine Beheer B.V.
- Possessory pledge for all Dutch receivables

9. NOTES MATURING AS OF THE END OF THE FISCAL YEAR

As the end of this fiscal year, December 31, 2021, was a bank holiday, the trade notes maturing on the balance sheet date of the period in the following amounts were included.

	Millions of Yen	Thousands of U.S. Dollars
Receivables: Trade notes Payables:	¥ 812	\$ 7,056
Trade notes Other	1,558 14	13,543 123

10. PROVISION FOR LOSS ON CONSTRUCTION CONTRACTS

Provision for losses on construction contracts included in cost of sales for the year ended December 31, 2021, was as follows:

	Millions of Yen	Thousands of U.S. Dollars
Cost of sales	¥17	\$152

11. EQUITY

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

a. Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. Additionally, for companies that meet certain criteria including (1) having a Board of Directors, (2) having independent auditors, (3) having Audit & Supervisory Board members, and (4) the term of service of the directors being prescribed as one year rather than the normal two-year term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. However, the Company does not meet all the above criteria.

The Companies Act permits companies to distribute dividends-in-kind (non-cash assets) to shareholders subject to a certain limitation and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

b. Increases/Decreases and Transfer of Common Stock, Reserve, and Surplus

The Companies Act requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus), depending on the equity account charged upon the payment of such dividends, until the aggregate amount of legal reserve and additional paid-in capital equals 25% of the common stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation. The Companies Act also provides that common stock, legal reserve, additional paid-in capital, other capital surplus, and retained earnings can be transferred among the accounts within equity under certain conditions upon resolution of the shareholders.

c. Treasury Stock and Treasury Stock Acquisition Rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders, which is determined by a specific formula.

Under the Companies Act, stock acquisition rights are presented as a separate component of equity.

The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

12. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

(1) Group Policy for Financial Instruments

The Group uses financial instruments, mainly long-term debt including bank loans, based on its business plan. Cash surpluses, if any, are invested in low-risk financial assets. Short-term bank loans are used to fund ongoing operations. Derivatives are not used for speculative purposes, but to manage exposure to financial risks as described in (2) below.

(2) Nature and Extent of Risks Arising from Financial Instruments

Receivables, such as trade notes and trade accounts, are exposed to customer credit risk. Although receivables in foreign currencies are exposed to the market risk of fluctuation in foreign currency exchange rates, the position, net of payables in foreign currencies, is hedged by using forward foreign currency contracts. Investment securities and equity instruments of customers and suppliers of the Group are exposed to the risk of market price fluctuations.

Payment terms of payables, such as trade notes and trade accounts, are less than one year. Although payables in foreign currencies are exposed to the market risk of fluctuation in foreign currency exchange rates, those risks are netted against the balance of receivables denominated in the same foreign currency as noted above.

Maturities of bank loans are less than five years after the consolidated balance sheet date and the interest rate is a fixed rate.

Derivatives include forward foreign currency contracts, which are used to manage exposure to market risks from changes in foreign currency exchange rates of receivables and payables.

(3) Risk Management for Financial Instruments

Credit risk management

Credit risk is the risk of economic loss arising from a counterparty's failure to repay or service debt according to the contractual terms. The Group manages its credit risk from receivables on the basis of internal guidelines, which include monitoring of payment terms and balances of major customers by each business administration department to identify the default risk of customers in the early stages.

The maximum credit risk exposure of financial assets is limited to their carrying amounts as at December 31, 2021.

Market risk management (foreign exchange risk and interest rate risk)

Foreign currency trade receivables and payables are exposed to market risk resulting from fluctuations in foreign currency exchange rates. Such foreign exchange risk is planned to be hedged principally by forward foreign currency contracts. In addition, when foreign currency trade receivables and payables are expected from forecasted transactions, forward foreign currency contracts are planned to be used under the limited contract term of half a year.

Interest rate swaps are planned to be used to manage exposure to market risks from changes in interest rates of loan payables.

Investment securities are managed by monitoring market values and financial positions of issuers on a regular basis.

Basic principles of derivative transactions are approved by an executive officer based on the internal guidelines which prescribe the authority and the limit for each transaction by the accounting and finance department. Reconciliation of transactions and balances with customers is made, and transaction data is reported to the officer on a guarterly basis.

Liquidity risk management

Liquidity risk comprises the risk that the Group cannot meet its contractual obligations in full on maturity dates. The Group manages its liquidity risk through commitment lines with major financial institutions.

(4) Fair Values of Financial Instruments

Fair values of financial instruments are based on quoted prices in active markets. If a quoted price is not available, other rational valuation techniques are used instead.

(a) Fair values of financial instruments

Millions of Yen

Cash and Cash Equivalents

The carrying amounts of cash and cash equivalents approximate fair value because of their short maturities.

Short-Term Loans Receivable

The carrying amounts of short-term loans receivable approximate fair value because of their short maturities.

Investment Securities

The fair values of investment securities are measured at the quoted market price of the stock exchange for equity instruments and at the quoted price obtained from the financial institution for certain debt instruments.

Receivables and Payables

The fair values of receivables and payables are measured at the amount to be received or paid at maturity because of their short maturities.

Short-Term Bank Loans

The carrying amounts of short-term bank loans approximate fair value because of their short maturities.

Long-Term Debt (including Current Portion of Long-Term Debt)

The fair values of long-term debt are determined by discounting the cash flows related to the debt at the Group's assumed corporate borrowing rate.

(b) Financial instruments whose fair values cannot be reliably determined

	Carrying	Carrying Amount	
<u>December 31, 2021</u>	Millions of Yen	Thousands of U.S. Dollars

13. BUSINESS COMBINATION

Business Transfer by Absorption-Type Company Split

The Company decided to transfer the rights and obligations regarding its communications equipment division to JRC Mobility Inc., effective January 1, 2021, based on its decision made at the shareholders' meeting held on November 25, 2020.

Furthermore, there is no cash consideration as a result of this company split.

(1) Subject of business transfer

Communications equipment division

(2) Succeeding company name

JRC Mobility Inc.

(3) Major reason for the business transfer

Nisshinbo Group will develop the mobility field as an independent business entity by this wireless communication business transfer.

(4) Estimated amount of business and assets to be succeeded

	Millions of Yen	Thousands of U.S. Dollars
Net sales	¥7,670	\$66,682
Operating income	201	1,746
Total assets	2,861	24,872
Total liabilities		1

(5) Overview of accounting treatment

This business transfer was treated as a transaction under common control in accordance with "Accounting Standard for Business Combinations" (ASBJ Statement No. 21, January 16, 2019) and "Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures" (ASBJ Guidance No. 10, January 16, 2019).

14. ADDITIONAL INFORMATION

Accounting Estimates

Due to the impact of COVID-19 over the world, the Group's business has been affected by the reduction of manufacturing and operating activities at the domestic and overseas business area and consequently, sales have declined.

The Group estimates impairment loss and recoverability of deferred tax assets based on the assumption that the financial results impacted by COVID-19, which vary by business, will gradually recover in the next fiscal year and thereafter.

Losses may be incurred if those impacts are prolonged.

Change of the Calculation Period for Employees' Bonuses

In the current consolidated fiscal year, the Company and its domestic consolidated subsidiaries revised the rules for employees' bonuses, changing the calculation period for summer bonuses from October 1–March 31 to December 1–May 31, for some consolidated subsidiaries from April 1–September 30 to December 1–May 31, for winter bonuses from April 1–September 30 to June 1–November 30, and for some consolidated subsidiaries from October 1–March 31 to June 1–November 30.

According to this change, the operating income and income before income taxes increased by ¥519 million (\$4,509 thousand).

15. SUBSEQUENT EVENT

Appropriation of Retained Earnings

The following appropriation of retained earnings for the year ended December 31, 2021, was approved at the shareholders' meeting of the Company held on March 28, 2022:

	Millions of Yen	Thousands of U.S. Dollars
Year-end cash dividends, ¥58.19 (\$0.51) per share	¥1,901	\$ 16,528

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Japan Radio Co., Ltd.:

Opinion

We have audited the consolidated financial statements of Japan Radio Co., Ltd. and its consolidated subsidiaries (the "Group"), which comprise the consolidated balance sheet as of December 31, 2021, and the consolidated statement of income and consolidated statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021, and its consolidated financial performance for the year then ended in accordance with the Companies Act of Japan and applicable regulations and accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As explained in Note 1 to the consolidated financial statements, the information provided in the notes to the consolidated financial statements is limited to that required by the Companies Act of Japan and applicable regulations. Statements of comprehensive income and cash flows are not required as a part of the basic financial statements under the Companies Act of Japan and applicable regulations and, accordingly, are not presented herein. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Audit & Supervisory Board Members for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Companies Act of Japan and applicable regulations and accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Audit & Supervisory Board members are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements,
 whether due to fraud or error, design and perform audit procedures responsive to those risks. The
 procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are
 in accordance with the Companies Act of Japan and applicable regulations and accounting principles
 generally accepted in Japan, as well as the overall presentation, structure and content of the
 consolidated financial statements, including the disclosures, and whether the consolidated financial
 statements represent the underlying transactions and events in a manner that achieves fair
 presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
 We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Deloitto Touche Tohmotore LLC

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

February 14, 2022
